

Innovation Ecosystem

Innovations must be inculcated as a habit in a student's life. Inventions are always the beginning of a larger sphere of means that solve the problems and create the thrust for new problem identification and solution. This document provides the information of our Institution's Innovation Ecosystem.

- ❖ Providing more importance to research on some new arenas or exploring new perspectives of the existing programmes, is the goal of innovation in education, which encourages the faculties and students to nurture their talent.
- ❖ Eminent industrialists and aspiring entrepreneurs are often invited to motivate the students.
- ❖ The alumni of Presidency College, who are successfully pursuing the entrepreneurial path also encourage our students through frequent interactions.
- ❖ Students extend their active participation in MHRD's Innovation Cell, EDC, IEDC, New-Gen IEDC, Innovation Cell, External Startup Cell, Student Clubs etc.
- ❖ The Placement Cell works closely with the students and the employers to ensure that the right students are connected with the right companies.
- ❖ The Institution also encourages students to prepare for Central and State Government competitive examinations. Special coaching, lectures, seminars and counselling sessions by experts are organized on a regular basis.
- ❖ Inclusiveness is essential and in view of this our college also provides degree programmes exclusively for hearing impaired students.
